HEAT SHRINK TUBING

The 3:1 Adhesive Lined Polyolefin shrink tubing stocked by Davis RF is ideal for providing that professional touch to your coax cable assembly.

The high shrink ratio and use of an adhesive lining ensures a tight seal with standard PVC and PE (polyethylene) jacketed coaxes to provide your cables with excellent protection against the elements.

The 1/2" ID Tubing will shrink to a final ID of .160" and is ideal for cables such as: RG 58, LMR-195, TWS-195, WBC-195, RG 8X, LMR-240, TWS-240, WBC-240 and LMR-240-UF

The 1" ID Tubing will shrink to a final ID of .320" and is ideal for cables such as: RG 213, Bury-FLEX™, LMR-400, TWS-400, WBC-400, LMR-400-UF, LMR-600, TWS-600 and LMR-600-UF
